Threshold Assessment (Research/Writing Requirement)

The learning goal in completing this paper is to determine your erudition from this course by an in-depth case study of a cold homicide case from the files of Cobb County Police Department. Your research details your findings and analysis. Your threshold assessment is turned in on **31 OCT 2013**. If it is not turned in on 31 OCT in class, then it is late. If a paper is late, the grade will be lowered, possibly as much as one letter grade or more. Papers are to be turned in and email attachments are NOT acceptable. Failure to turn in two copies of the threshold assessment will also shape the grade. Papers must be original printed copies; photocopies are not acceptable and will be returned.

Research Guide

Your threshold assessment details YOUR assessment of the physical evidence of behavior, victimology, and crime scene characteristics for a cold homicide case. The goal is to provide the cold case detective with investigative direction. You must explain the examinations performed: the background of the case, the victimology (or lack thereof), an equivocal analysis of the autopsy findings, the crime scene characteristics, the offender characteristics, and your investigative suggestions for the cold case detective. You make a determination of the behavioral motivational typology of the offender and link the typology to the signature behaviors found. A threshold assessment must be a minimum of 1500-words and a maximum of 2500-words. Papers must be in original ink (no copies of papers); must be printed front to back; must be three-hole punched and must ready for turn-in (I do not furnish staplers and hole-punch devices on the day of turn-in).

Use the APA writing style. You are provided all research material; therefore, you only cite material other than the furnished cold case material. Use a 12-point Times New Roman font; **print the paper front and back (in original ink...not on a copy machine)**; staple in top left corner (no cover, spines, or notebooks); 3-hole punch both copies of the paper. Turn-in two (2) copies of your threshold assessment: one copy is graded and returned; the other copy is provided CCPD Crimes Against Persons leadership.

Use the KSU Writing Center for assistance. Peer reviews are encouraged. Students are awarded 1 point per KSU Writing Center mentoring session, up to 10 points. Each mentoring session is expected to be a minimum of 20 minutes. The points are added to the grade of the final exam. Failure to follow these directions will impact your grade.

Threshold Assessments are scored based on:

Quality of research

Critical Thinking and Logical Arguments

Analysis of Physical Evidence and Behavioral Evidence Assessment

Quality of presentation in the written form

Compliance with requirements of the research guide

Academic Honesty

If you do not understand plagiarism, you need to read the definition. Plagiarism results in a grade of 0. The Bottom Line: Do the right thing!

Every KSU student is responsible for upholding the provisions of the Statement of Student Rights and Responsibilities, as published in the Undergraduate and Graduate catalogs. Section II of the Statement of Student Rights and Responsibilities addresses the University's policy on academic honesty, including provisions regarding plagiarism and cheating, unauthorized access to University materials, misrepresentation/falsification of University records or academic work, malicious removal, retention, or destruction of library materials, malicious/intentional misuse of computer facilities and/or services, and misuse of student identification cards. Incidents of alleged academic misconduct will be handled through the established procedures of the University Judiciary Program, which includes either an "informal" resolution by a faculty member, resulting in a grade adjustment, or a formal hearing procedure, which may subject a student to the Statement of Student Rights and Responsibilities minimum one semester suspension requirement.

Plagiarism and Cheating

No student shall receive, attempt to receive, knowingly give or attempt to give unauthorized assistance in the preparation of any work required to be submitted for credit (including examinations, laboratory reports, essays, themes, term papers, etc.). Unless specifically authorized, the presence and/or use of electronic devices during an examination, quiz, or other class assignment is considered cheating. Engaging in any behavior which a professor prohibits as academic misconduct in the syllabus or in class discussion is cheating. When direct quotations are used, they should be indicated, and when the ideas, theories, data, figures, graphs, programs, electronic based information or illustrations of someone other than the student are incorporated into a paper or used in a project, they should be duly acknowledged. No student may submit the same, or substantially the same, paper or other assignment for credit in more than one class without the prior permission of the current professor(s).
